Parley Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "entireties" free any more than a merchant can afford to give his customer free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade and advertisements should be paid for, no matter in what form of the paper they appear.

We'll Break the Rule!

|||||

January, as a rule, is a dull month for clothing people. We believe much of the dullness is the fault of the merchants. They labor under the impression that nearly everyone has laid in their winter supplies and fear to expend money for printer's ink. We will break the rule and see what virtue there is in printer's ink and the effect of good clothing at about 50 cents on the dollar. Now, the first thing you want to do is to read this carefully; the next is to come and see the goods advertised. What will follow will be a rule-breaker.

On Thursday morning, January 19th, and until the end of the month, all our fine Beaver Overcoats—garments that sold for \$10, \$12 and \$15—will go at \$8.75.

Our finest Beaver, Kersey and Cover Overcoats that sold at \$18, \$20 and \$25 will go at \$15.

Our Cheviot and Cassimere Suits that sold at \$10, \$12 and \$15.60 will go at \$8.75.

Our finest Cheviots, Worsteds and Cassimere Suits that sold at \$15, \$18 and \$20 will go at \$12.

We need not comment on qualities. Everybody knows what class of clothing we sell.

\$4.90! \$4.90!

This represents the selling price of 200 all-wool Cassimere and Cheviot Suits that we recently closed out from C. Meyers & Bro., Philadelphia. Not a Suit in the lot that isn't worth \$9. They come in four styles and all sizes. We believe them the greatest bargains we ever came to offer you. This morning the entire line will be in our show-window. Look for the \$4.90 Suit. It's a hummer.

For extra bargains in fine Shoes come to us. We want to close out our heavy Shoes to make room for our spring stock.

Spot Cash will be the watchword during this sale.

One thing that attracts many people to Cincinnati to buy goods is the bargains that Cincinnati merchants advertise in the Cincinnati papers. Maybe Mayville merchants might keep some of this trade in Mayville if they would advertise bargains in the Mayville papers. Suppose you try THE LEADER.

The matter of entertaining the State Convention of the Young People's Society of Christian Endeavor, which was stated a few days since had been offered to Mayville by President John D. Ellis, was voted on by the general Society Sunday evening and it was decided not to extend the invitation. The President has been notified, and another place will be offered the honor.

Edward and Mary Hiett, whose names are quite frequent on Judge Wadsworth's docket, were up yesterday on the threadbare charge of keeping a disorderly house. They will now be orderly for several weeks.

THE MAN OF THE HOUR.

When water taps decline to flow,
And hands are nipped and numb,
When kitchen boilers burst and blow
Our cooks to kingdom come;
When in our rooms are standing pools,
Or rivers white with sleet,
The Plumber, with his bag of tools,
Is master of our Fate.

He comes at ten, with double knock,
And thinks the matter o'er;
He goes to dig at twelve o'clock,
And comes again at four.
He shakes his head with knowing wag,
And says he's found the leak.
Then, walking off with shoulder d bag,
Returns another week.

O! Plumber, calm, and cold, and sage,
How countless you show
An overdriven, fevered age
The art of some slow
Our Eight Hour champion to the rear
Must slink in shame away,
Since you, more forward pioneer,
Embrace a Two Hours day.

James F. Berry, the late tramp millionaire, fills a pauper's grave at Paducah. He was buried in the potter's field at public expense. A pine plank, sharpened at one end, and a rough mound will mark the resting place of the man who tried to spend \$100,000 and succeeded in seven months, though it cost him his life.

THE LEADER scribe yesterday dropped into the Marble Works of J. M. Redden, 27 East Second street, and must confess for genuine artistic work Mr. Redden is the man, being a practical workman of life time experience. He will make closer estimates than dealers who have to depend upon high priced workmen. We advise all who are wanting anything in Mr. Redden's line to consult him before purchasing.

In Mexico the law's delays are less resented than in the United States. In deed, one hears nothing at all about delay in the Administration of Mexican Justice. A short time ago a paymaster went down into Sonora with between \$5,000 and \$7,000. He stopped over night at a ranch, where he was robbed and murdered. The robbers were caught by the local police, but the magistrate discharged them. Then the Government took a hand in the affair. The robbers were caught again and shot immediately. The magistrate who had acquitted them was also shot. The watchman at whose house the robbery occurred was shot. Some distant accessories after the fact were shot. In all sixteen men were shot.

It is said that Senator Deboe's bill to divide Kentucky into two Federal Court Districts will meet with determined opposition in both the Senate and House. It is believed all the Democrats in the Kentucky Congressional delegation will oppose the measure, while two of the Republicans will be lukewarm in its support.

There are reasonable grounds to believe that the Episcopalians brethren of Kentucky will shortly have some desirable patronage to dispense. It is said that the Right Reverend Bishop Dudley will accept the position of General Secretary of the Foreign Missionary Society of the Protestant Episcopal Church and resign his bishopric to devote his time and attention to his new duties. This will be a loss and entirely nevered, but with Rev. Reverend Edill of Louisville or with Rev. W. G. McCready of Newport, a vacant rectory that already of many might cover as consistently as his calling will permit, will then have to be filled.

NEWSY NOTES FROM SATURDAY'S GREAT HIGHWAY.

The marks show 39.7 and falling along the Ohio River.

The handsome Queen City will be the next Pittsburgh boat down, passing this city tomorrow evening.

The Keystone State with a fine trip passed down last night from Pittsburgh and will return tonight.

The Baltimore and Ohio Mail Line from the Big Sandy Packet Company.

The Henry M. Stanley passed down last night from Pomeroy, and tonight she will pass up for Charleston and way points.

The Buckeye State will leave Cincinnati February 19th as an auxiliary Mardel Grub boat, as one boat this year will not accommodate the crowds.

The pilots of the Joseph B. Williams believe that the accident to the Williams at Glenfield was caused by striking one of the boilers of the wrecked Percy Kelsey. The wreck of the boat has moved down quite a distance and is a menace to navigation. Captain Dillipod says the Williams is the finest "handier" on the river since the boat has been equipped with a steam steering apparatus.

Captain John E. Klein, the great hustler of Pittsburgh, is in Cincinnati settling up the insurance of the wrecked steamer Hotspur. Captain Klein had particularly hard luck with the boat, having practically rebuilt her only about four weeks before she went over the dam at Lock No. 4 on the Monongahela River. The boat was insured for \$4,000. Captain Klein is looking for another boat to replace the Hotspur.

It is likely that he will buy a boat before many days. The John Mackey suits him exactly, but costs a little too much money for him just after his recent losses.

Arguing in behalf of enlarging and deepening the outlet to the Gulf, Mayor Flower of New Orleans said: "During the past year the commerce of the port of New Orleans has almost doubled, and it is still increasing at that ratio. The jeties are needed their purpose well. It can be shown that since their construction, nineteen years ago, the saving in freight rates to the producers of the Mississippi Valley who ship abroad has been in the neighborhood of \$200,000,000. But the jeties are no longer adequate. When they were constructed sea-going vessels were not built to draw over 35 feet of water. The estimated cost of improvement and extension of them which we will ask Congress to make is \$5,000,000. If we get 30 feet of water that amount can be saved to the producers of the Mississippi Valley in two years."

The Health Officer of East Liverpool, O., has prepared a memorial and will forward it to Congress on the sanitary conditions along the Ohio. It contains an original view of why there is such an outbreak of typhoid fever along the Ohio just after the first rise from headwaters in the fall. He says that when low water comes in the summer and the wickets at the Davis Island Dam are raised and the cool pools are allowed to fill up a great extent of slack water is created. The sewage of Pittsburgh and the other cities and towns along the rivers above the pool pollute the water in the slack. The sewage runs to the coal pools and the Davis Island Dam and remains until the full rise comes and the wickets are lowered. Then in a health destroying stream the foul accumulations of the summer run into the Ohio Valley and we have in all cities an outbreak of typhoid fever. The memorials will ask Congress to take some action to compel these cities to make other disposition of their sewage than allowing it to run into the Ohio river.

We All Know

There is a popular belief that eyes cannot be properly fitted outside of an oculist's office, but we are constantly proving the incorrectness of that belief. Printers, like other people, have to eat—sometimes. That is, if they can get the material. But they can't get the material without money—unless someone gives it to them. Now, if you owe this Printer, he will gladly accept a few country hams, a bushel or two of potatoes, or most any old thing that comes from the farm—and will give full credit at market prices. See?

The Governor's Mansion has long been referred to as a "rat trap" because it is a building not in keeping with the dignity of the state, but Governor Bradley is showing an evidence that the house has real title to the designation. Rats come in Tuesday night began work on the large metal water pipe leading from the kitchen and entirely severed it, the marks of their teeth being plainly seen upon it. A plumber repaired the damage and the Governor is looking for rat dogs, as he thinks the species of rat that infests the mansion is too large for cats.

But he shall speak for himself:

CRISIS REACHED

In the Investigation into the Charges of Bribery.

There Will Likely Be Several Witnesses Arrested for Contempt.

Their Attorney Claims That the Senate Has No Jurisdiction in the Investigation of Alleged Bribery, and Witnesses Have to Testify in the Matter.

COLUMBIA, N. Y., Jan. 30.—The investigation into the charges of bribery at the recent election of United States senators reached a crisis Wednesday night. No matter what may be the final result of the investigation, there will likely be several witnesses arrested for contempt. The committee had seven witnesses subpoenaed for Wednesday night, but they were not all examined because none of them would testify.

The senate committee Tuesday night examined Samuel Penland, Frank P. Ross, W. B. Threlkeld and Shepherd M. Dunlap, who then asked to confer with their attorneys and were excused till Wednesday night for that purpose. When they appeared Wednesday night, they said they had no jurisdiction in the investigation of the alleged bribery of a member of the house and several witnesses then not to answer any further questions before the committee. They all followed the advice of their attorneys, as did Mr. Hollenbeck, who was not on the stand Tuesday night. When the committee found that the advice of attorneys was being followed uniformly by all witnesses called, the open session was closed and the committee went into executive session on plans for further procedure.

The senate chamber was crowded when the committee in executive session, from 7:30 to 9 p. m., to examine witnesses, and the action of witness caused demonstration of the session. The witnesses did not decline to tell the names of their counsel, and their replies showed that most eminent lawyers had been engaged by the witnesses. The charges of bribery were made by Representative Otis and the resolution that the house was adopted by a majority of affirmative votes, a majority of a quorum only. There are 106 members and any measure requiring the expenditure of money requires affirmative votes, or a majority of all. As the house committee can not employ a lawyer or pay for anything in the expenditure of money, it is unable to proceed. The senate, by a majority of three, has adopted a resolution to investigate the charges. That body has 56 members and is a politically. By anything in the affirmative, the resolution was adopted 19 to 17. These resolutions were offered before any ballots were taken and were expected to cause a deadlock and a postponement of the affirmative votes, or a majority of all. It is not denied that the house has jurisdiction, but attorneys have told the witnesses that the house has no jurisdiction and that they need not comply with their questions. The members of the house investigating committee were present on invitation Wednesday night and they were requested to ask questions, but none of them did so. Judge Robertson, who has served with distinction on the bench at Cincinnati, is a member of the committee and is a prosecutor. He wore himself out Wednesday night in asking questions and getting the monotonous reply, "On the advice of counsel I decline to answer."

Chairman Burke, Senators Lang and Flannery did their best to get the witnesses but to no avail. After the four others took their turns, Senator Burdick would close such examination by asking: "Do you desire to answer questions because your attorneys say this committee has no jurisdiction in this case and has no power to examine the witnesses were excused. Each witness was told by the committee and should report Thursday night at 7:30 or sooner if called for. Among the cases city is that of Daniel Dalton, who was subpoenaed in 1936 to bring forward talliesheets before a legislative committee. Dalton refused and was brought before the house for contempt. Dalton was subpoenaed to produce public records in his custody and the witnesses Wednesday night claim they are asked to produce private property. As the committee will make a partial report to the senate Thursday a lively time is expected. The committee will ask the Dalton to punish the witnesses who attempt and to give the investigators full authority.

No Chances for Senator.

A Petition From the Southern Pacific Railroad Co. Denied.

Gen. C. C. Auger Barred With Military Honor—Senator Morgan Closes His Speech Favoring the Annexation of Hawaii—All Quiet in Havana.

WASHINGTON, Jan. 30.—Secretary Hilas has denied the petition of the Southern Pacific Railroad Co. for a suspension of that portion of department decision in the case of the Union Co., which it would ask under recent decision of the supreme court that the railroad company could not make indemnity selection of lands within the fortified limits of the grant to the Atlantic & Pacific Co. In effect, the action of the secretary directs the restoration to public entry of the lands of conflicting limits of the grants to the two railroad companies.

Gen. Christopher C. Auger, United States army, retired, was buried with military honors at Arlington Wednesday afternoon. Funeral services were held at 10 o'clock, the remains being borne on a caisson draped with the flag under which he had fought through two wars and a score of Indian campaigns. The religious services at the church were performed by Rev. J. Mackay Smith.

Gen. Lee called the state department at 2:41 o'clock Wednesday afternoon that all was quiet at Havana. Senator Morgan continued his speech in advocacy of the ratification of the Hawaiian annexation treaty in the executive session of the senate Wednesday night. He closed his speech at the conclusion of Wednesday's session, that he probably would require one day in which to complete his presentation of the subject. Mr. Williams, of Mississippi, introduced a resolution in the house Wednesday to provide for a minister of agriculture to be appointed by the president. "Resolved, That there be and is hereby appropriated out of the monies hereunto appropriated the sum of \$5,000 to pay the salary for one year of an envoy extraordinary and minister plenipotentiary to the republic of Cuba."

It was referred to the foreign affairs committee. He also introduced another bill for a commission to negotiate a treaty of peace, amity and commerce between the United States and Cuba.

WASHINGTON, Jan. 30.—The senate committee on foreign relations Wednesday authorized a favorable report upon the nomination of Hon. C. P. Bryan to be minister to Brazil and upon that of Hon. R. H. Connelley to be minister to Brazil. No opposition has developed to Mr. Bryan's appointment to Brazil.

WASHINGTON, Jan. 30.—Mr. Brucker (dem.) presented a resolution in the house Wednesday instructing the committee on foreign affairs to report without delay the senate United States belligerency resolution. It was ruled out on a point of order.

An appeal was then laid on the table on a yeas and nays vote, 166-105.

There were no manifestations of approval on the announcement of the vote. The house then, on Mr. Little's motion, went into committee of the whole and resumed the consideration of the diplomatic and consular appointment bill. As soon as the first paragraph was read the struggle was resumed. Mr. Williams (dem.) offered an amendment to direct the president to appoint the consuls to be proposed to Cuba and, if possible, negotiate a treaty of peace, amity and commerce with the republic of Cuba.

WASHINGTON, Jan. 30.—The committee on foreign relations Wednesday authorized a favorable report upon the nomination of Hon. C. P. Bryan to be minister to Brazil and upon that of Hon. R. H. Connelley to be minister to Brazil. No opposition has developed to Mr. Bryan's appointment to Brazil.
